TRAINING ACADEMY

International General Medicine Training Programme (2 +2 MRCP)

University
of South
Wales

Welcome Message from Dr Ramesh Mehta

I welcome this excellent BTA initiative in collaboration with University of South Wales and our International Accredited Hospitals, are developing as a hub for Medical Education in India and it is appropriate that BTA provides opportunities in this region.

I am confident that excellent faculty at our international accredited hospitals, will add value to the visiting UK faculty to provide excellent training in Medicine. After 2 years overseas when the trainees come to UK for next 2 years not only, they will be exposed to excellent training but will get mentoring and pastoral support from BTA.

Dr Ramesh Mehta President, BAPIO

Prof. Parag Singhal
Founder Course Director
& Chair, BTA

We are delighted to announce the launch of this unique (2 years overseas and 2 years in UK) training programme. This gives new dimension and takes Indo U.K. collaboration to a new level. This programme provides a great opportunity for doctors to receive high quality training in General Medicine by Indian and U.K. faculty and help both the countries.

BAPIO training academy has developed a robust system to ensure monitoring of the quality of learning. This will create a new generation of General Medicine specialists who have acquired all the necessary skills. This Training programme will help deliver much needed training in India and help to achieve and expand the vision of having proper General Medicine services in India.

In addition to clinical training, our programme offers opportunities to undertake quality improvement and research projects supported by international faculty. This will also encourage the publication in reputed journals.

Mission

Excellence in Medical Education and Training.

Vision

Training healthcare professionals to become clinicians and leaders to help deliver equitable and cost effective care for global sustainability of healthcare systems.

Dr Shashank Vikram
Consul General of India, Birmingham

"I truly believe that British-Indian Partnership can be instrumental in training the healthcare workforce required for the 21st Century, not only for both countries but also to address global shortages. Medical graduates from India would get an opportunity to study in the UK, gain work experience in the NHS, and subsequently return to India to support the delivery of a world-class healthcare service. This 'circular economy' would benefit both countries, and I congratulate BAPIO for this very timely initiative, and wish them all the best. I do hope that this scheme can be scaled up in a relatively short period of time so that it can produce perceptible benefit both for NHS and Indian healthcare sector."

Prof Dame Parveen Kumar
Professor Emerita Barts &
London School of Medicine

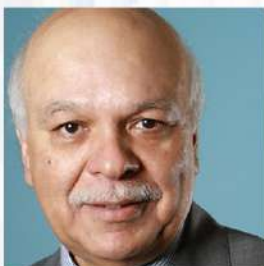

"2+2 is a fantastic initiative that will benefit both the young doctors in training and also the NHS. It fills a much needed and an important gap and I am delighted to be part of it."

Prof. Martin Steggall
P V C University of
South Wales

"We are delighted to be welcoming our clinical colleagues from India, and look forward to continuing this international collaboration in partnership with BAPIO.

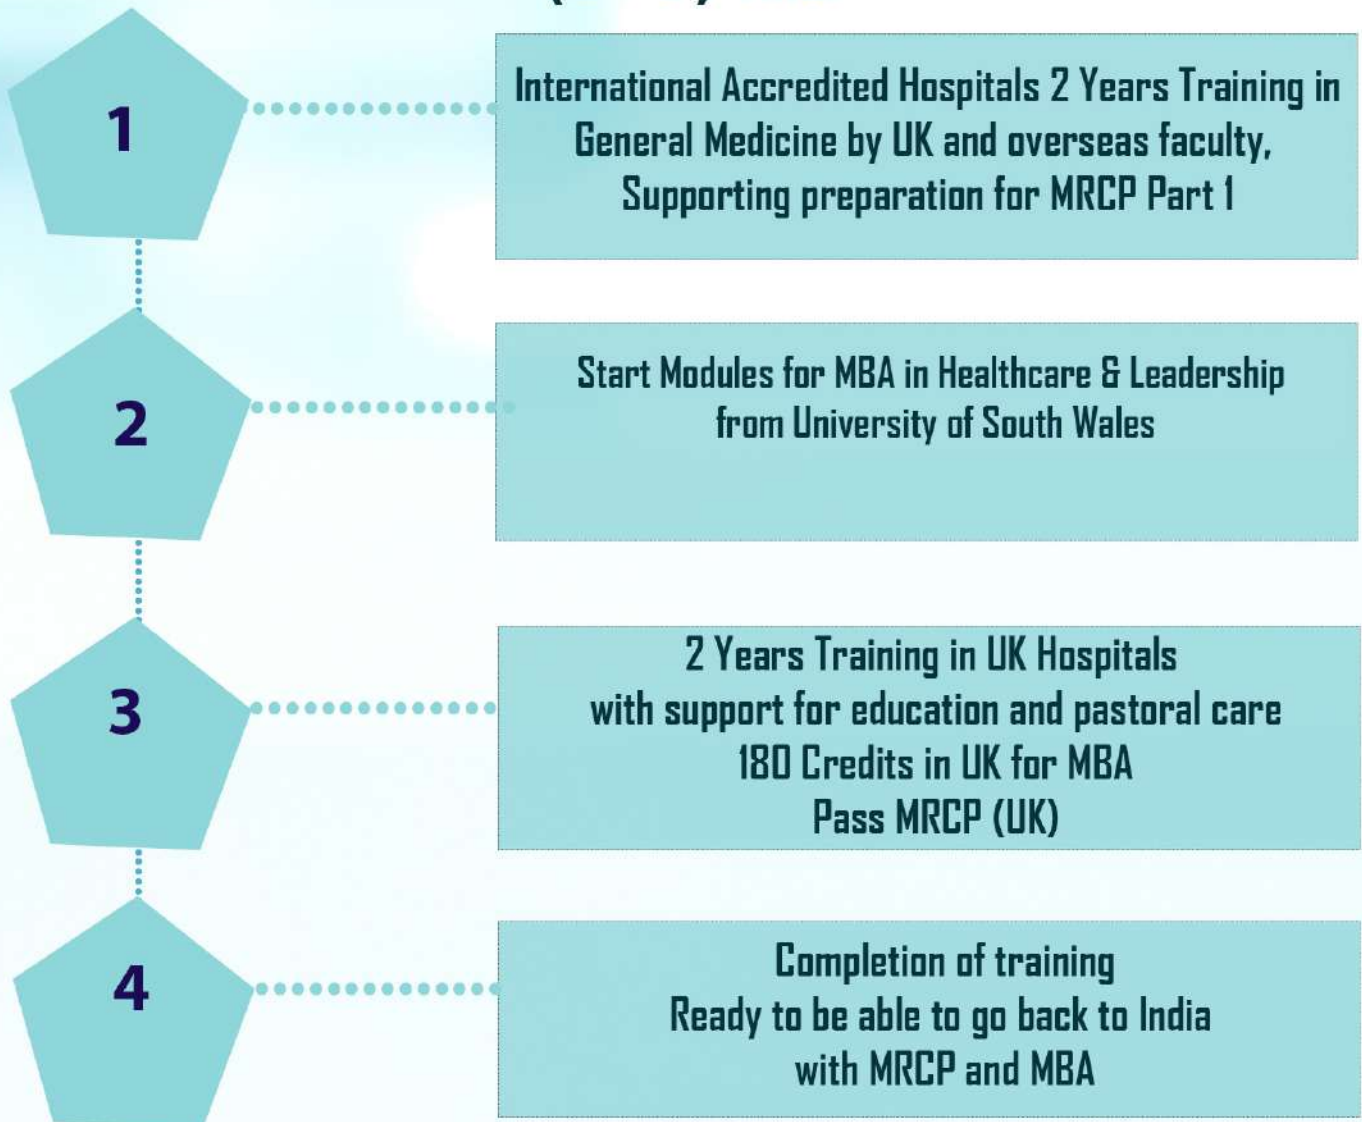

While hosting the visitors, the University of South Wales (USW) is pleased to be able to offer our facilities and expertise to support their educational development."

Prof. Davinder Sandhu
Chair of
Quality Assurance

"This is a unique opportunity to train professionally overseas (2 years) and in the UK (2 years) in Medical Training, Leadership and Research gaining globally recognized qualifications through the membership/fellowship and gain a MBA in Healthcare and Leadership."

International General Medicine Training Programme (2 + 2) MRCP

Pathway For MRCP and MBA

Training delivered overseas and in UK on the basis of MRCP UK Curriculum .
Candidates enrolled for the MBA in Healthcare & Leadership from USW.

India/Overseas

Year 1

Clinical training delivered by local and global faculty (overseas faculty visiting India 4 times in a year)
Enrolment in the MBA in Healthcare & Leadership (MHCL)
MRCP Primary Examination and related preparation

Clinical Audits – Introduction and Methodology
Focus on Work Life Balance and Community development programme

Year 2

Clinical Audits- Application and real time audits
Focus on Work Life Balance and Community Development Programmes
Candidates to complete their MRCP Part 1

UK

Year 3 - 4

2 years in UK Hospitals in Secondary Care
Support for passing MRCP (UK) and MBA (USW)

Roles of Involved Institutions

International Accredited Hospitals

- ~ The International accredited hospital will be the lead organization for 2+2 programme in India and will be responsible for the first 2 years of training and employment.
- ~ The Hospital will liaise with USW and BTA in UK and look after visiting UK trainers including their travel, lodging and boarding.

University of South Wales

- ~ This University will be UK organization participating in delivering MBA training as part of this programme.

BAPIO Training Academy(BTA)

- ~ BTA will be coordinating this programme and work as a link between India and UK.
- ~ It will also be responsible for creating a UK visiting faculty and the UK consortium of General Hospitals.
- ~ It will coordinate with the faculty visits to India and organise UK induction and mentoring.
- ~ It will provide pastoral care to ensure the wellbeing of Indian doctors whilst in the UK.
- ~ It is anticipated that 2 UK trainers will go out for 1 week's teaching every 3 months. These trainers will be rotated according to availability and content requirement so that any one trainer may go out once every 2 years.

Program Quality Assurance

- ~ 360-degree feedback and real time intervention will be undertaken to safeguard the standard of the 2 +2 programme.
- ~ The programme overseas and in the UK will be closely monitored and audited by experts deputed by the BAPIO Training Academy.

Responsibilities of the UK Trusts

- ~ Sign Contract with the BTA
- ~ Full support for planned education and training

Finances

Eligible graduate doctors are expected to pay a yearly fee (tbc) whilst in the Indian part of the programme to cover the costs of visiting faculty.
